

Subcutaneous Syringe Driver Competency Training Programme 2018 NIKI T34

“The session was simple and informative and we were able to ask questions if in doubt. Thank you. I really enjoyed the session and gained new knowledge.”

“This training was relevant and appropriate to our workplace. You shared some great communication skills”

“Thank you so much. The course was excellent. Having the workbook to read beforehand was a bonus and it’s good to have it to refer to.”

Subject to Demand

Cost:

Update: \$25.00 per person (incl. GST)
Competency: \$90.00 per person (incl. GST)

This is a training programme for Registered and Enrolled Nurses working in aged residential care and the community settings.

The workshop is divided into two parts. The first hour is a presentation that covers the practical knowledge and skills required for managing a syringe driver. Participants attending the update component of the workshop are only required to stay for the presentation.

Nurses attending Competency training will then get the opportunity to practice with the equipment before undertaking a practical assessment. They are also required to complete and submit a written test. Competency is achieved on successful completion of both the practical and written components.

Registrations are essential.
